## System Manual

### **Risk warning**

Before you begin trading on Real account please carefully consider your investment goals, risk and experience you have. It should be noted that Forex is a leverage based market. It should be remembered that leverage can work both in your advantage and disadvantage as well. Therefore there is high risk of losing a part or all of your financial input placed on your account and because of that you should remember to trade with the amount of money which you can lose without taking any influential financial damage.

## Handful of advice

- Before trading, always make sure that the market does not expect any important data. If something 'big' appears in the news calendar, it's better to wait for their announcement and later join to further movement.
- Always try to trade on major sessions when the volatility is the greatest.
- Try to not overtrade. Do not keep more than 2-3 trades at the same time.
