

6 Figure High Risk Trading Plan!

Go for gold and hit 6 figures quickly with high chance of blowing account. Fun and challenging.

Day Deposit:	Balance \$100.00	Daily % Growth	Per Trade Profit Goal	Necessary Lot Size Based On <i>ONE</i> Trade Per Day			Instructions (print and follow)		
	^Change to Your Balance	20.00%		TP:	25	35		55	
				SL:	20-25	30-45		45-60	
		2					For your own trades or for the account you're using for the 6 Figure challenge... here's how you compound.		
1	\$120.00	20.00%	\$20.00		0.08	0.06	0.04		
2	\$144.00	20.00%	\$24.00		0.10	0.07	0.04	Step 1. Change box B2 to 50% of YOUR starting balance if you're using less 1,000:1 leverage.	
3	\$172.80	20.00%	\$28.80		0.12	0.08	0.05	OR change box B2 to YOUR actual starting balance if you're using 1,000:1 or greater leverage.	
4	\$207.36	20.00%	\$34.56		0.14	0.10	0.06		
5	\$248.83	20.00%	\$41.47		0.17	0.12	0.08	Step 2. Change box C3 to 5% for safe and effective growth and good risk management.	
6	\$298.60	20.00%	\$49.77		0.20	0.14	0.09	OR change box C3 to 20% for high risk 6 figure challenge.	
7	\$358.32	20.00%	\$59.72		0.24	0.17	0.11		
8	\$429.98	20.00%	\$71.66		0.29	0.20	0.13	Step 3. Use column B to determine lot size. If your account is equal to or more than the amount shown in	
9	\$515.98	20.00%	\$86.00		0.34	0.25	0.16	column B, use the lot size (based on pip goal) in that same row.	
10	\$619.17	20.00%	\$103.20		0.41	0.29	0.19	OR if your account is less than the amount shown in column B, go the row above it that is closest to your	
11	\$743.01	20.00%	\$123.83		0.50	0.35	0.23	account size but not bigger than your account actual account size.	
12	\$891.61	20.00%	\$148.60		0.59	0.42	0.27		
13	\$1,069.93	20.00%	\$178.32		0.71	0.51	0.32	This is based off of per Trade you take, simply go line by line.	
14	\$1,283.92	20.00%	\$213.99		0.86	0.61	0.39		
15	\$1,540.70	20.00%	\$256.78		1.03	0.73	0.47	Rules:	
16	\$1,848.84	20.00%	\$308.14		1.23	0.88	0.56	This sheet is approximate & is based only on usd pairs, numbers won't be exact due to fees, spreads, swaps,	
17	\$2,218.61	20.00%	\$369.77		1.48	1.06	0.67	and commissions. The idea is to keep growing, not to be super exact.	
18	\$2,662.33	20.00%	\$443.72		1.77	1.27	0.81	Use a pip calculator because each pair is worth a different amount.	
19	\$3,194.80	20.00%	\$532.47		2.13	1.52	0.97	Always move your stoploss into profit.	
20	\$3,833.76	20.00%	\$638.96		2.56	1.83	1.16	Do not be in more than 2 trades at the same time if compounding high risk w/ high leverage	
21	\$4,600.51	20.00%	\$766.75		3.07	2.19	1.39	Do not be in more than 4 trades at the same time if safely trading w/ good risk management	
22	\$5,520.61	20.00%	\$920.10		3.68	2.63	1.67	Always wait for first trade to be in profit, w/ stoploss moved into profit before entering your next trade.	
23	\$6,624.74	20.00%	\$1,104.12		4.42	3.15	2.01	Never enter any trade that does not match your own criteria & rules, if you can't see it, don't enter it.	
24	\$7,949.68	20.00%	\$1,324.95		5.30	3.79	2.41	You can choose to close the trade at TP, at Trade Profit Goal, hold the trade if it's still moving the right direction only if your stop loss is in profit and protected. Only until you get the signal or find the next trade. My rule is if it's still below the 8ema I will hold the sell. If it's still above the 8ema I will hold that buy until I get the next trade
